RE: Notice of Oral *Ex Parte*
Docket GN 09-191
Docket GN 10-127

Dear Ms. Dortch:

This notice is submitted in compliance with Section 1.1206(b) of the Commission's Rules.

On December 1, 2010, Dr. Mark Cooper, Director of Research of the Consumer Federation of America, had a phone conversation with Margaret McCarthy Policy Advisor to Commissioner Copps. He discussed the critical ingredients to ensure an open Internet in the context of the approach outlined in the Chairman's statement earlier in the day including the importance of having a permanent rule in place that not only enforced principles of nondiscrimination but also laid the basis for all of the critical public interest principles of the Communications act including universal service and consumer protection. Ongoing concerns about reasonable network management practices, specialized services, and wireless were discussed, as were potential legal theories that might be utilized in an FCC order based on the approach outlined by the Chairman.

Sincerely,
